

Group Retirement Savings Plan

Registered Retirement Savings Plan and Deferred Profit Sharing Plan

FutureStep[®] is an innovative group retirement savings plan designed to help businesses like yours be competitive and take care of your employees' future financial needs.

A comprehensive group retirement savings plan

The FutureStep® group Registered Retirement Savings Plan (RRSP)¹ is a great way to help your employees save for their future while creating a mutual sense of partnership.

Plan features:

- best-in-class investment options
- information tools and online services, typically only available to larger companies
- a cost-effective design that is easy to set-up and manage

Contributions are made using payroll deduction – an easy and convenient method that will enable your employees to save for the future while deferring income tax on their contributions and savings growth until the money is withdrawn.

For even greater flexibility, FutureStep is also available with a Deferred Profit Sharing Plan (DPSP) option 2, which allows you, as the employer, to contribute to the plan based upon the profitability of your business.

¹FutureStep is available to Canadian residents and accepts funds in Canadian dollars only.

²The DPSP option can only be selected with the group RRSP and is not a stand-alone offering.

What is a Group RRSP?

A group Registered Retirement Savings Plan (RRSP) is a savings vehicle offered by an employer to his/her employees as a way to save for their retirement. Employees can contribute to the plan and attain certain tax advantages.

What is a DPSP?

A Deferred Profit Sharing Plan (DPSP) is an employer-sponsored profit sharing plan that is registered as a trust arrangement with the Canada Revenue Agency (CRA). These plans are designed to:

- Reward good company performance, in the form of profit sharing
- Create a sense of partnership between an employer and his or her employees
- Only the employer contributes to the DPSP since employee contributions are not permitted.

Benefits to you

Business owners, like you, have unique needs. FutureStep® can help meet those needs, offering a number of benefits:

- **Simple and straightforward**, from start to finish – applying online is quick and convenient. Plan set-up is seamless and ongoing administration is hassle-free. From our secure website, you can:
 - submit contributions (the contribution amount will be deducted according to the banking information you provided).
 - access online support tools and reports that are easy to read and understand.

Help is readily available as well, either online or through our bilingual customer service centre.

- **First-class employee services** – your employees are well supported, with access to our online retirement planning tools, statements and educational materials

FutureStep® works well with your company's overall compensation approach by enhancing the future financial security of your employees and their families. Having a comprehensive retirement savings plan in place will help you:

- stand out when recruiting and retaining employees
- create a sense of long-term loyalty and pride in your team

Benefits to your employees

Your employees can benefit from:

- **Low fees** – when fees are low, savings grow! The investment management fees (IMFs) in a group plan are typically lower than the management expense ratio fees charged by individual mutual funds and banks.
- **Immediate tax savings** – employees see immediate tax savings with the group RRSP if contributions are deducted from their gross pay, which means they pay income tax only on the reduced amount
- **Online ease and support**
 - Online enrolment is fast and easy
 - A secure website featuring comprehensive education and support tools – such as our industry-leading Steps Retirement Program®
 - Ongoing online administrative support, including access to live support through our customer service centre and from licensed financial education specialists
 - An annual statement that is mailed to his/her home, summarizing account activity

Investment Information

About investments

Your FutureStep® plan will include options for employees who know very little about investing, as well as those who prefer to build and monitor their own portfolios. You'll never have to worry about the investment options available in your plan because Manulife manages the fund line-up for you. Available funds include:

- **Retirement Date Funds** (no-touch) – Manulife's Retirement Date Funds are an excellent option for employees who prefer not to regularly review their investments. They are a series of funds with pre-determined maturity dates to match when an employee wants to retire.
- **Asset Allocation Funds** (low-touch) – Manulife's Asset Allocation Funds are for employees who don't have a high level of investment knowledge but plan to spend some time managing their plans.
- **Build Your Own Portfolio** (high-touch) – Manulife offers a variety of market-based funds from a range of asset classes as well as guaranteed interest accounts (GIAs) with different terms, for more experienced, hands-on investors in your group.

All Funds Held to Rigorous Standards

The Manulife Investment Watch (i-Watch®) program is a proven process that uses extensive selection and monitoring criteria to select and monitor funds. With i-Watch you can be confident that the funds and fund managers offered to your group are of superior quality.

Manulife also certifies that your plan's fund line-up will meet the Capital Accumulation Plan (CAP) Guideline criteria for investment diversification, with options that vary by investment style and by objective. Manulife's Certified Diversified® warranty program issues a warranty certificate that helps protect you from certain financial losses resulting from legal action that challenges the adequacy of your plan's investment diversification.

For more information on these investment options, please contact your financial advisor.

I'm interested. How do I get started?

If you have a minimum of two employees in the plan whose combined annual contributions and/or transfer of assets equals or exceeds \$10,000 annually, Manulife's FutureStep RRSP program is the perfect choice for your company.

We've made it easy for you to establish your plan. Simply follow these steps:

- 1** Get in touch with your financial advisor to get more information or send an email to futurestep@manulife.com
- 2** Work with your advisor to finalize the details of your plan design.
- 3** Work with your advisor to complete the online application.
- 4** Sign the contracts and return them to Manulife. We'll send you a welcome letter with customer number and e-enroll access code.
- 5** Use the plan administration guide sent with your welcome letter to start remitting payroll contributions.

It's that easy!
